Dear Ratepayer;

Re: 2012 Gopher Poison

The R.M. of Pense will offer the following products for 2012:

- 7 kg pail (premixed) of **Gopher Kill** (.4% strychnine) - cost \$61.00/pail.
- 250 ml bottle of **2% Liquid Strychnine** - cost \$7.25/bottle. Treats ~ 40 - 50 gopher holes. (if available)
- 13.6 kg pail (pre-mixed) of **Rozol Pre-mix** – cost \$84.00/pail. Treats ~ 180 – 240 gopher holes.
- 22.7 kg bag (pre-mixed) of **Rozol Pre-mix** - cost \$131.50/bag. Treats ~ 300 - 400 gopher holes.

Our Pest Control Officer, Grant Peeling, recommends the use of Rozol Pre-mix. It is a pre-mixed bait, no secondary poisoning, does an equal or better job than strychnine, it works all season (not just in the spring), the cost per gopher is the same as strychnine and no paperwork is involved. Excellent results so far, this will be the third year offered. All gopher poison will be charged at cost (see above).

If you are interested in obtaining gopher poison from the R.M. of Pense for 2012, please complete the form below and return it to our office by **March 9, 2012** (fax us @ 345-2583; email us @ rm160@sasktel.net; drop it in the door slot).

We will contact you when the product arrives. Email is the easiest way for us to contact you. We will hold a distribution day at the office with our Pest Control Officer in attendance. The distribution day was held in early April last year.

I would like to order and agree to pay for the cost of the following gopher control product:

- _____ pails of Gopher Kill (7 kg)(cost \$61.00/pail)
- _____ bottles of 2% liquid strychnine (250 ml)(cost \$7.25 /bottle)
- _____ pails of Rozol Pre-mix (13.6 kg)(cost \$84.00/pail)
- _____ bags of Rozol Pre-mix (22.7 kg)(cost \$131.50/bag)
